The league has been split into 3 tiers. Teams will play all the teams in their tier over the first 5 weeks. At that point two teams will be invited to advance from tiers 3>2 and tiers 2>1. Once again all teams will play their tier, and after week 10 teams will be seeded into the tournament with a championship bracket of 12. All teams will have a chance at the championship through this format, while we expect more parity between teams.
